## Job description for senior full-stack developer

uugot.it is searching for a **full-stack developer** to further develop its *learning language while watching TV* solution.

At uugot.it we are developing a solution that helps people learning and improving languages while they watch TV. We stream broadcasts and add interactive subtitles that help users to understand words they don't understand. Our innovative approach has been awarded multiple times. We are a team of 6 persons and currently working on the beta version. Therefore we hire an experienced developer to complement the team.

### Minimum requirements:

- 7 years employment in commercial software development
- 3 years experience developing for consumer-facing web and/or mobile products, 5 years experience strongly preferred.
- 3 years demonstrable experience in modern software development practices and the software lifecycle in a distributed environment: Source code control, branch and merge issue management, unit-testing, & CI.
- Demonstrable experience delivering code within a microservice-based software architecture.
- Demonstrable experience delivering code to, and releasing code within, a cloud-based ecosystem.
- Commercial experience in multiple development languages, with expertise in NodeJS and in at least one statically-typed language.
- Experience in user authentication using OATH or another framework.
- Good English language skills.

### Strongly desired:

- Microsoft Azure experience
- Ionic and/or Angular2 JS experience

### What we offer:

- Working at a hot topic startup with an international team of professionals
- Diverse range of duties
- Partly remote work possible
- Austrian company with Austrian job contract
- Employee participation program

### Interested:

In case we have awakened your interest, you see yourself as a **problem solver** and share our vision please forward your CV, a project list (including your duties) plus your salary expectations (net-salary) and the dates of your availability to

[ask\\_uu@uugot.it](mailto:ask_uu@uugot.it)

We are looking forward to hearing from you!
